Profile

Developed skills in collaborative, fast-paced development environment, focusing on both front-end and back-end technologies. Demonstrates strong analytical abilities and effective problem-solving techniques, with focus on delivering high-quality solutions. Seeking to transition into new field, leveraging versatile skill set to contribute to diverse projects.

WORK EXPERIENCE

06/2025 – 08/2025
Panipat, Haryana

Code Quotient School of Technology

Internship

- Gained hands-on experience in front-end technologies, including HTML5, CSS3, and JavaScript, focusing on creating responsive and user-friendly web interfaces.
- Developed and deployed multiple web projects, applying modern design principles, and ensuring cross-browser compatibility.
- Strengthened problem-solving and analytical skills by practicing data structures and algorithms (DSA), improving logical thinking, and code efficiency.
- Collaborated on real-world projects that enhanced understanding of **UI/UX design**, performance optimization, and code debugging.
- Researched emerging technologies to integrate into lesson plans and activities.
- Worked on version control using Git and GitHub for maintaining code, contributing to team collaboration, and project tracking.

EDUCATION

08/2024 – Present
Kurukshetra, Haryana

Master of Computer Application

Kurukshetra University

Pursuing

07/2021 – 05/2024
Sonipat Haryana

Bachelor of Computer Application

Hindu Institute of Management

CGPA 7.06

04/2020 – 05/2021
Sonipat, Haryana

12th

Mamchand Sr. Sec. School

Percentage 91.2%

SKILLS

- HTML
- CSS
- Javascript
- TailwindCSS
- MongoDB
- SQL
- Express
- nodejs
- Python
- Java
- React
- API

LANGUAGES

PERSONAL PROJECTS

Job Portal

(Node.js, Express, MongoDB, EJS)

- Designed and developed a full-stack **Job Portal** for job seekers and employers with secure authentication and role-based access control.
- Implemented complete **CRUD operations** for job postings, user profiles, and applications using Express.js and MongoDB.
- Added **email verification, password hashing (bcrypt), and session/JWT authentication** for enhanced security.
- Created a **responsive and user-friendly UI** using HTML, CSS, JavaScript, and EJS for seamless navigation across devices.
- Integrated **application workflow features**, including resume upload, job application tracking, and employer review system.

Weather Application

(HTML, CSS, JavaScript, PHP)

- Built a fully responsive **Weather Dashboard** using OpenWeatherMap API to fetch real-time weather data for any location.
- Integrated **secure authentication (login/signup)** using JWT/session-based login to personalize the user experience.
- Implemented **location-based weather detection** using browser geolocation for automatic weather updates.
- Designed a clean and intuitive **UI/UX** with dynamic icons, temperature display, and detailed weather metrics (humidity, wind speed, visibility, etc.).
- Added **error handling**, input validation, and loading states for smooth API communication and user feedback.
- Optimized API calls and used efficient data rendering to improve performance on mobile and desktop devices.

CERTIFICATES

Diploma in Computer Applications

(06/2021-06/2022)

Computer Fundamentals | Web Basics (HTML, CSS, JavaScript)

|

Microsoft Office |

Programming (C, C++) | Tally
